Dr. Daniel Fox has been treating patients in both Ocean and Monmouth counties for 25 years. He specializes in orthopedic surgery and sports medicine, with a particular interest in shoulders, knees, wrists and all arthroscopic surgeries. He also performs cartilage transplantation surgery, partial joint replacements and endoscopic carpal tunnel surgery.

Dr. Fox founded the Center for Orthopedics and Sports Medicine, which also includes pain management and rehab physicians. A board-certified orthopedic surgeon, he completed his residency at the Albert Einstein College of Medicine Affiliated Hospitals in New York City and a fellowship at the University of Florida.

He has extensive experience working with high school and recreational athletes. "My ultimate goal is to get patients back to their preinjury, competitive level by using state-of-the-art techniques with the least invasive treatments available," Dr. Fox says. "If I am able to accomplish that, then I have done my job."
